Email: ayanniyihameed@gmail.com

Profile

Enthusiastic and detail-oriented Frontend Developer with hands-on experience building responsive, user-friendly applications using React, Next.js, JavaScript, HTML, CSS, and Node.js. Skilled at collaborating with cross-functional teams to deliver efficient digital products. Strong background in software engineering, data analysis, and talent acquisition. Currently advancing academic and technical expertise with a First Class BSc (Hons) Information Technology with Business Information Systems.

Professional Experience

- **Junior Developer**

Cannalis Labs – Lagos, Nigeria | May 2023 – June 2024

- Developed and optimised frontend for an insurance platform using React, delivering dynamic, reusable components and integrating APIs for real-time policy data.
- Partnered with designers and product managers to refine UI/UX and align deliverables with business goals.

- **Talent Acquisition Specialist (Remote)**

Ennex Group – United Kingdom | Aug 2022 – Mar 2023

- Increased qualified applicants for technical roles by 30% through targeted LinkedIn outreach and proactive engagement.
- Collaborated with hiring managers to streamline the recruitment process and improve candidate experience.

- **Data Analyst Intern**

Tek-County – Lagos, Nigeria | Feb 2021 – May 2022

- Conducted data analysis using Python and Pandas, enhancing business decision-making with accurate insights.

- Optimised reporting pipelines, reducing data delivery times and improving reliability of outputs.
